

Miracles

In your darkest hour
You are not alone
There's someone who loves you
More than you know
I can be your sunshine
On a cloudy day
I can send your troubles far, far away

These times are hard
But I know we'll make it through
If you stop believin'
I'll believe in you
If you lose your faith
I have enough for two
With these open arms and a heart that's true

(chorus)
At the end of the tunnel there's a golden light
A new days dawning at the end of each night
Everything you want is wanting you too
Miracles are waiting
To happen to you

When you're feelin' lonely
In a world of change
And your closest friends
Are actin' strange
Don't forget the one
Who's waiting here
Makin' all those shadows disappear

I remember times
Of deep despair
When I couldn't find
Someone who cared
I would've searched
My whole life through
But I found a miracle in you

(repeat chorus)
