

Be My Angel

You're an angel of the street
You make a man feel so complete
Are you the girl I used to know
Many lifetimes ago

You've got a smile that's bittersweet
Mona Lisa can't compete
But I can see the scars inside
Broken dreams are hard to hide

(chorus)

Walk away with me
We'll give each other what we need
Let me be your friend
I'll take you to the rainbows end
Put your hand in mine
Leave your broken dreams behind
Be right by my side
Be my angel
Be my angel tonight

Men have tried to clip your wings
Never offered anything
But I would rather watch you fly
Than force you to be mine

(repeat chorus)

(bridge)

I've given up on paradise
'Til I found it in your eyes
Baby if we only last the night
Will you be, will you be
Will you be my angel
