

Comin' And Goin'

You invite me for forbidden fun
Then dismiss me when your pleasure's done
There's no guilty trippin' when I leave
I'm a call away to come back and fill your needs
Fill your needs

(chorus)

You got me comin' and goin'
In and out of my mind
You get my motor runnin'
Just to pass your time
When you want me, you got me
In the palm of your hand
Like a vicious circle in a no promise land

I'm not afraid of your haunting eyes
I'm enticed that there are no lies
You cause confusion when you feel there's doubt
Create perfection 'til there is no way out
No way out

(repeat chorus)

(bridge)

Night after night after night after night
You're doin' me wrong and it feels so right

There's no guilty trippin' when I leave
I'm a call away to come back and fill your needs
I'll fill your needs

(repeat chorus)
