

# Fallin' In Love

Lately you're invading all my dreams and all my time  
I wake up every mornin' with you burned into my mind  
I pour a cup of coffee and it's all that I can do  
To stop myself from pickin' up the phone and callin' you

(chorus)

I keep actin' strange  
All my friends say I've changed  
I can't tell if I'm down or I'm up  
I used to like to be free  
But somethings happenin' to me  
Like it ain't already hard enough  
I think that I'm fallin' in love

Drivin' home from work last night I stopped along the way  
To pick you up some roses in a pretty pink boquet  
I got back in that car of mine and suddenly somehow  
I'm missin' you and wishin' you were here with me right now

(repeat chorus)

I keep actin' strange  
All my friends say I've changed  
I can't tell if I'm down or I'm up  
I used to like to be free  
But somethings happenin' to me  
Like it ain't already hard enough  
I think that I'm fallin' in love  
Oh yeah, I'm fallin in love
