

# In Love

As we danced together  
And I fell into her arms  
We were blinded by the night under the stars

Nothing seemed to matter  
We shut out every sound  
But the melody that only we had found  
So we both ran away to the morning  
Just to see how far we could go

(chorus)  
In Love, In Love

So we lived inside the moment  
And we saw the time pass by  
And we never understood the reason why

The world had seemed to change us  
But both in different ways  
As the sun began to set on early days  
So we both ran away to the morning  
Just to see how far we could go

(repeat chorus)

If the music should change and you're feeling afraid  
Know that I won't let you go  
If the stars start to fade and the clouds bring the rain  
Know that I won't let you go  
If the passion can't hold and the fire gets cold  
Know that I won't let you go  
No I won't, no I won't  
Know that I won't let you go

As we danced together  
And she fell into my arms  
We were blinded by the night under the stars
