

Lovers On The Run

Flirtin' with the devil while we're livin' in a love song
(Who sold your soul)
Pedal to the metal baby you and me are long gone
(Out of control)

Shoot me with that sugar while I take you on a new ride
(No turnin' back)
Keep the fire burnin' while we roll into the dark side
(Fade into black)

(chorus)
Crime of passion
Holdin' smokin' guns
Livin' like we're lovers on the run

Steal another kiss but I'm never feel guilty
(No alibi)
Coverin' up our tracks while we hit another city
(Like Bonnie and Clyde)

(repeat chorus)

If you talk in your sleep
Forget where you came
Wipe my prints off your window pane
If you sleepwalk forget where ya been
Get your story straight and hide your sins

Go and tell your mama you ain't comin' home
(You're all alone)
If they ask you questions tell them you don't know
(No, no you don't)

(repeat chorus)
