

Moonlight Matinee

You're lookin' Hollywood
How can I look away
A starlet attitude
In every word you don't say
By your side
Being led down a red carpet ride
Kiss me

(chorus)
The night is fallin' down
Too late to turn around baby
The stars and fireflies
Projectin' on your eyes baby
Feels like we're 17
Up on the silver screen
Actin this way
Moonlight matinee

We're settin' up the scene
We've been waiting for
A backseat mezzanine
A feelin' we can't ignore
Stoppin' time
With your heart beatin' hard next to mine
Kiss me

(repeat chorus)

(bridge)
All the signs all this time
Only we knew
Everyone before you just a preview
I just can't wait til the guy gets the girl

(repeat chorus)

Baby, baby, baby you're the one for me
Baby, baby this is where we're supposed to be
