

One Night At A Time

Now tell me, how did we get here
My mind is a blur
I was blinded by the moonlight
And a beautiful girl
We started out strangers
Is that what we'll remain
Neither one of us ready to make a big change

(chorus)

One night at a time
We use the same ol' worn out lines
One night at a time
Lookin' for a love that we'll never find
Playin' the roll is takin' it's toll
Entering hot, exiting cold
Actin' unkind, fallin' behind
Holdin' our hearts and losin' our minds
One night at a time

And tell me, how will we leave here
When it's time to go
Will I ask for your number
Will we both feel alone
Makin' love in the shadows
Numb from the wine
We'll come to our senses just to say goodbye

(repeat chorus)
