

One That Got Away

All you ladies give her dirty looks
One wink every guy is hooked
She walks by and traffic jams
She got the world in the palm of her hand
She's the one makes my heart trip up
We did it steady and I fell in love
Then I slipped and I messed it up
And she found herself another man

(chorus)

She's the one that got away (Hey, I got away)
The one that got away (Hey, I got away)
The one that got away (Hey, I got away)
The one that got away (Hey, I got away)

Nothin' good 'bout a bad excuse
I did her wrong and she cut me loose
Everybody says I'm a fool
I shake my head, try to play it cool
She's got a lot of what they call the most
I'll never ever get her back I know
That's the way that the story goes
She went and found herself another man

(repeat chorus)

She told me that she loved me
She told me that she needs me
Always thinkin' of me
So baby why'd you leave me

Hey fellas better listen up
Hold tight to the one you love
Make sure you're her biggest fan
Or she'll find herself another man
