

Somehow

Sometimes it's not so easy
To just leave it all alone
When the tears are flowin' like a river
That's when we tend to throw the stones

Everybody's tryin' to move on up ahead
Don't wanna be left behind
All we do is step on one another
Tryin' to cross the finish line
How'd we get so blind

(chorus)
Somehow we've got to help each other
Can't win if we're in it alone
Somehow we'll see that we're all brothers
And we'll lead each other home
Right where we belong

Sometimes I get so worried
'Bout what's waitin' on the other side
Our time is short but not for nothin'
So let's live 'til we die

One thing that people have in common
Is we all end up the same
Step back, try to think it over
Before you go and cast your blame
Oh you know we got to break this chain

(repeat chorus)

Oh, we've got to stop the fightin'
Yeah, we're all in this game
Oh, reach out your hand now
'Cause everybody's just the same

(repeat chorus)
