

Upside Down

If you're world flipped upside down
You'd be flying, no longer stuck to the ground, the ground
If we break the speed of sound
Will it catch us if there's no one around, around
To hear us laughing as we dance and watch the world spin by

(chorus)

Upside down
Start it all over, spin your head around
Look over your shoulder back at what you found
I'll be lookin' back at you
Inside out
Heart does the talkin' 'til there's no more doubt
Feels like you're walkin' up on a cloud
And you're never coming down

We can meet above your place
Give me your directions just in case, whoa
Hurry up and take a chance
Head over heels we'll have our dance, let's dance
No one hears us while we laugh, just take a big deep breath

(repeat chorus)
