

What Would You Do

What would you do if someone told you
That tomorrow your life wouldn't be the same
What would you say if someone asked you
How you'd spend your time if you had one last day
Where would you go if there was no place left to run
Who would you hold if you were left the only one
If suddenly you lost the only way you knew
What would you do

How would you feel if everything around you
Slowly started slipping away
If all the people that you cared for
Disappeared just as fast as they came
What would you think if all your thoughts made no more sense
What would you gain if you lost your innocence
If the world you believed in was untrue
What would you do

(chorus)
If all your maybes left undone
Might of changed it for someone
Instead you chose the road that's easiest for you
If all the words you should've said
Were locked in silence in your head
If you could've gave yourself for someone that you knew
What would you do

What would you give to gain the power
Of a life that brings you fortune and fame
You can enjoy it for your hours
But when you're gone no one remembers your name
What would it hurt to lose a little of your pride
So you can inspire someone else to want to try
Once you realize you've got nothing to prove
What would you do

(repeat chorus)
