

Wilder

Somewhere you're there
Wandering alone
Guided baby spirits
You make your way back home
If home's where the heart is
You've got a ways to go
You're loves overflowing
About to lose control

(chorus)

You're wilder than the ocean
Dancing on the sand
You run right through my body
But slip right through my hands
And me, I must be crazy
To think I could hold you down
I'm in your waters, please don't let me drown

On golden beaches
You whisper in my ear
Wind is howling
You're not really here
I see your reflection
Every time I dream
Waves of suspicion
Crashing over me

(repeat chorus)

Somewhere you're there
Wandering alone
Guided baby spirits
You make your way back home
