

# You And I

I've been waiting for this day for quite some time  
To take you by the hand and let the whole world know you're mine  
When the daylight's gone, baby from now on  
Holdin' you the sun's still gonna shine

There's not a day that you don't cross my mind  
Can't help but dream about you every time I close my eyes  
One thing that I know, is deep inside my soul  
This feeling that I'm feeling feels so right

(chorus)

I can't live without you baby that's no lie  
Won't waste another minute without you by my side  
You will always be the only for me until I die  
We will be together always and forever, you and I

No one else that I have ever known  
Has given me the strength to even try to carry on  
From the first time I saw you, somehow I just knew  
This love we have would grow to be so strong

(repeat chorus)

You will always be the only one for me until I die  
We will be together always and forever, you and I
