

You Can't Save Me

Tonight we're gonna paint the town
Set'em up and knock'em down
We'll be bad and have a little fun
You know they say the good die young
There's no way to survive
So you best enjoy the ride
We're never gonna make it...Outta here alive

(chorus)
(Save me) You know you can't
(Save me) no, no, no you can't
(Save me)
No one's getting' out alive

Livin's what we gotta do
With a new point of view
A little trouble is on my mind
When it comes to trouble I'm overqualified
We can try and try
But you know we just can't hide
We're never gonna make it...Outta here alive

(repeat chorus)

Let's take it to the very edge
Hang our feet right off the ledge
Hold my hand we're gonna fly
Let's light it up, paint the sky
Baby it's just you and me
Let's do a whole lotta naughty things
Tonight we're gonna shut it down
Flip it up, turn it all around
All the angels gonna cry
'Cause we're runnin' with the devil tonight
We're never gonna make it...Outta here alive

(repeat chorus)
