

## 45

Oh baby baby, those knee highs, green eyes make my temp rise  
Burning up a fever tonight  
When I saw you out shakin' well I started pushin' hundred and five  
When you're movin', groovin', honey you're provin'  
You can blow me out of my mind  
Yeah, my world starts rockin' and I'm poppin' like the Fourth of July

(chorus)

You got that somethin'  
Really makes me feel like jumpin'  
Got me spinnin' like an old 45  
I'll grab your handles as I'm blowing out the candles  
On the toppin' of your sweet cherry pie  
Your ruby lips, your swingin' hips  
Your cocoa butter bubble behind  
Now you got me started  
Don't you leave me broken-hearted  
'Cause the two of us make one-of-a-kind

So gimme gimme your lovin', huggin', girl let's get it thumpin'  
My heart is beatin' out of my chest  
My tongue's hangin' down like a looney-tooney hell of a mess  
You make the whole room go boom when they smell your perfume  
You really got me under your spell  
I'm the one that comes runnin' just as soon as you start ringin' your bell  
Come on baby

(repeat chorus)

It might be radical  
No, it's not practical  
Feelin' supernatural  
I'm tryin' to keep it casual  
Yeah, oh yeah I'm losin' control  
Yeah, oh yeah actin' like an animal

(repeat chorus)

Spinnin' 'round and 'round and 'round and 'round we go
