

# All You People

Some people don't get me  
Not sure who I am  
Since I don't think like they do  
They all wanna condemn  
Some people don't wanna hear  
All the things I gotta say  
But they can lift that needle  
'Cause I'm gonna say it anyway

(chorus)

All you people go do what you do  
Don't worry 'bout me  
All you people don't see things through  
'Cause you just can't see  
All you people with your rights and wrongs  
Just let me be  
I do what I gotta do  
It's for the people not me

So easy to judge somebody  
Who don't look the same  
It's easy to throw your shade  
Laugh and call them names  
Some people wear a big fake smile  
To hide the truth within  
Take it out on some poor ol' soul  
Make'm feel like they win

(repeat chorus)

Some people like to waste their time  
Chasin' down fame  
Bein' an Instagram Zombie  
So everybody knows their name  
I've walked through fire I've walked through smoke  
Now I can see it clear  
I was hangin' at the end of my rope  
That's how I ended up here

(repeat chorus)
