

Beautiful Girl

Where ya been
Beautiful girl, all my life
I've traveled the world
And never seen anything
As perfect as you
What could I do
I've fallen in love with you

Girl, that look in your eyes
When you smile
Lights up the sky
I've never known anyone
Who could do what you do
You feel like truth
It's a miracle

(chorus)
Look at us now
Your arms all around me
Kisses like candy oh baby mm hmm
Tell me what I'm gonna do now

Ooh, we've got all night
And it's a beautiful night
Come a little closer
And hold me real tight
Follow me through a dream
And when we wake up
We'll make love
All over again

(repeat chorus)

And she fell into my arms
We were blinded by the night under the stars
