

# Breakfast In Bed

Lately, it's like the whole world's shut down  
And baby, all we've got's each other now  
Ain't no use findin' somethin' to do  
Stuck inside, and I'm lovin' the view  
Layin' around, just me and you

(chorus)  
Under the covers  
Eatin' our breakfast in bed  
(Breakfast in bed, breakfast with my baby)  
Lockdown lover  
Just eatin' our breakfast in bed  
(Breakfast in bed, breakfast with my baby)

In our lifetime, we rush to make our dreams fly  
But sometimes it's nice to watch the clouds roll by  
A glass of wine and a dinner for two  
The TV's on but I'm tuned into you  
Sleep in late as the day turns new

(repeat chorus)

All of the people keep waitin' for change  
Findin' the reasons they can complain  
But with no control to make it go away  
Just pass me a waffle, a pillow, and the champagne

Ain't no use findin' somethin' to do  
We're safe inside, and I'm lovin' the view  
Layin' around, just me and you

(repeat chorus)
