

Cinderella

Let me introduce myself
I'm the guy your friends all told to stay away
Run, run, run you should, he's no good
That's what they all say
They make me out like I'm just lookin' for some fun
Before that was true but now baby you're the only one

(chorus)
Some fairytale I'm feelin'
Who cares what they say 'bout it
Nothin's felt so real, and I just wanna shout it
A Cinderella story
Too legit to quit
There'll be no more runnin' 'round
Now the slipper fits

I used to be the kind to try to find
Some sort of trouble every night
Ooh- Thought it was borin' only scorin'
Just one girl to hold me tight
Now I know I've been a fool for way too long
First day you came my way
My foolin' 'round was done

(repeat chorus)

Whoa, I'd do anything for you
Just like magic baby all my dreams came true
At the time I couldn't see it
That's 'cause love is blind
But now I know what it all feels like

So let me introduce myself
I'm the guy who's never gonna make you cry
When that pumpkin carriage fades away
I'll be walkin' by your side
Somethin' about you makes me feel like I'm a king
Even in the midnight hour, we'll have everything
