

Dear Santa

Last Christmas I asked for a girl
She came and tore apart my world
Yeah she looks real nice
But she's as cold as ice
The elves have got more work to do

(chorus)

Dear Santa won't you take her back
I didn't know that she would drive me crazy
I can help you put her in your sack
You could keep her at the North Pole maybe
Ooh, she makes my Christmas blue
I need somebody new
Oh Dear Santa, Oh Santa
Take her back with you

This Christmas I have just one wish
Please take her off my Christmas list
She thinks she's so wonderful
But treats me like a lump of coal
Won't you let the reindeer haul her back with you

(repeat chorus)

I'd rather be alone beneath the mistletoe

Now Santa you brought me some cool stuff over the years
And I've really appreciated all of it
But this girl, this girl
You could keep her at the North Pole maybe
Ooh, she makes my Christmas blue
I need somebody new
Oh Dear Santa, Oh Santa
Take her back with you
