

# Dreaming Out Loud

(It's forever, It's forever, It's forever)

From the moment you danced into my life  
I knew you were the one  
I was blinded by true love at first sight  
And my head was spun

You light up the room like a full moon  
Oh, not a moment too soon  
Now we're like some fairytale I know so well  
I can't believe it, I feel it

(chorus)  
We're dreaming out loud  
Feet off the ground  
Twirling around in our own fantasy  
Where you'll be my queen  
And I'll be your king  
Together we'll live out our happy ending  
(It's forever, It's forever, It's forever)  
Just you and me

I found forever in the first time we touched  
This was meant to be  
Never had a feeling I believed in so much  
Baby dance with me

Our hearts beating in time  
Words fall in rhyme  
Oh, what a beautiful ride  
Now we're like some fairytale  
We both know so well  
I'm gonna show it, I know it

(repeat chorus)

Ooh baby, we're never ever gonna let it fade away  
Ooh baby, it won't disappear I will always be here for you
