

Easy Way Out

Take me for a ride in your elevator
Show me how the world looks at your feet
Panoramic views and candy kisses
Scorn all the suckers on the street

Brush away a tear and black mascara
Broken fingernail catastrophe
Your remote control and omni-vision
Have no control over me

(chorus)

You take the easy way out
And it's so easy to see
That you hide behind your cloud
Thinkin' you set yourself free

Take me for a ride in your red Mercedes
Show me how the world is yours to steal
Loaded up with fuel, your engine's runnin'
A bloodthirsty lady at the wheel

You got rich quick, you're incorporated
Heart that's made with stone heavy with hate
Loves too hard so you make it easy
By destroying everyone in your way

(repeat chorus)
