

Every Second

Don't want to miss a second
We've got no time to lose
Don't want to miss a moment
Of the thrills you put me through
I can lay awake all night and listen to you breathe
Feel the rhythm of your heart as you lay next to me

(chorus)

Every second counts the time is moving fast
Every second counts we've got to make it last
Every second counts tomorrow is unknown
I'll be counting every second 'til I get you alone

Don't want to miss a second
As the hours slip away
I'll forget about forever
Just to kiss you for a day
Sunshine turns to moonlight slowly dancin' on your face
No thought about tomorrow or any other time or place

(repeat chorus)

(bridge)

Feels like eternity
When you are away from me
And my life is so empty without you

(repeat chorus)
