

# Everybody's Baby

(Everybody, everybody, everybody)

Life of the party is out on the town  
All the boys come 'round  
Everybody's talkin' sayin' you all that  
They kneel at your feet and they tip their hat

You look good (Look good) walkin' around the city  
You look good (Look good) never seen anything so pretty  
You look good (Look good) cooler than an ice cream cone  
A beauty queen from a magazine, tell me who's gonna take you home

(chorus)  
Everybody's baby, toast of the town  
Number one lady, you wear the crown  
Come and taste my honey, I'll take you 'round the world  
You're everybody's baby, won'tcha be my girl  
(Everybody, everybody, everybody)

The party's over and the memories fade  
(Flashback) Will you remember my name  
(Makin' love in the rain) Yes you will  
Too hot to handle (Too young to care)  
Where did we go (Nowhere)

You can call me baby when you're all alone  
You look good (Look good) walkin' around the city  
You look good (Look good) never seen anything so pretty  
You look good (Look good) cooler than an ice cream cone  
A beauty queen from a magazine, tell me who's gonna take you home

(repeat chorus)

Gonna dance all night (Gonna dance)  
Gonna dance all night (Gonna dance)  
'Til I make you mine

(repeat chorus)
