

I'll Bring The Wine

If I could only heal the world
I'd be your Superman
Soon as I can touch your skin
I won't let go your hand
Maybe I could steal the sun
And make it warmer for you baby
Show you you're the only one
When we get through this maybe...

(chorus)

I'll throw the songs baby
You catch the vibes
You got the moves baby
I got the rhymes
I'll set the mood for ya
When you got time
You bring you
And I'll bring the wine

Maybe when the day turns new
We'll see things clearly
I would change my point of view
Just to get'cha near me
Baby I could keep on goin'
I've said it before, I know, I know
But you're the only one I want
That's all I know for sure

(repeat chorus)

Oh, no, no don'tcha worry
Oh, oh, oh won't you hurry
Time is movin' slow

I think about my life
Livin' all alone
If I can't fix this world
Let's just make our own

(repeat chorus)

It's up to you baby, to make you mine
I'd drop it all baby, stop on a dime
I'll set the mood for ya, when you got time
You bring you, and I'll bring the wine
