

Love Me Tonight

Leave me tomorrow
But love me tonight
Lie and say you'll always stay
You can sneak away at daylight

Don't tell my heart you're going
Until the time is right
Don't make me cry until sunrise
Just love me tonight

(chorus)
You no longer want me
We've grown our separate ways
All that I am asking
Is before you go away

Lay here beside me
And let me hold you tight
I know by dawn that you'll be gone
So love me tonight
