

Need A Little Christmas

Get out the holly, put up the tree
I got the Christmas feelin' tonight
Light up the candles, bring out the lights
Gonna deck those halls so bright
Hear the choir singin' so joyfully
Church bells are ringin'
So come and celebrate with me

You know I need a little Christmas
I need it right now
It hasn't snowed a single flurry
So Santa please won'tcha hurry

(chorus)
I need a little Christmas
Need a little love
Need a little magic
Comin' down from above

With mistletoe hangin' above the door
The house is all aglow
Feel the eager eyes on mama's pumpkin pies
And windows framed in snow
Hear the choir singin'
There's tinsel on the tree
Church bells are ringin'
So come and celebrate with me

You know I need a little Angel
Watchin' over me
You know my heart is beatin' stronger
I can't wait a minute longer

(repeat chorus)
