

Rock n' Roll Heaven

Burnin' up the West Coast tryin' to make a dollar
Night after night shootin' whiskey like water
Packin' all the nightclubs in every single city
The road is hard but the girls are pretty
A whole lotta trouble is all that I'm gettin'
But I'm workin' my way up to rock n' roll heaven

Leavin' Louisiana, headed out to London
Sixteen shows then we're back on the runnin'
Sleepin' on a jet plane, wake me in the mornin'
The angel on my shoulder's givin' me the warnin'
Livin' on the edge of the goals I'm settin'
But I'm workin' my way up to rock n' roll heaven

(chorus)

Whoa, whoa, It's the only way I've ever known
Whoa, whoa, I'll be ready when they call me home

Sign another contract, gotta earn a livin'
Everybody's takin', no one likes givin'
Breakin' my back for the bills I'm payin'
But I forget about it all when I'm out there playin'
It's takin' up a toll on the time I'm spendin'
But I'm workin' my way up to rock n' roll heaven

(repeat chorus)

Get up on your feet, put your hands up higher
I'll be turnin' up the heat 'cause the band's on fire
Listen to the music, feel it in your body
Do a little dance 'cause tonight we're gonna party
Kickin' out the lights and turn it to 11
Workin' my way up to rock n' roll heaven
