

# Whole Lotta Wrongs

Honey lookin' the way you do is gonna get you in trouble  
When you walk by every man's eye's takin' a double  
If you can find a little time tonight  
Wouldn't mind if I could squeeze you tight  
I'd do a whole lotta wrongs just to do you right

When you walk into the place all the promises break so easy  
Every move you make is a big mistake if you're teasin'  
It's takin' all that I can do  
Just to keep my hands off you  
Now I'd do a whole lotta wrongs just to do you right

(chorus)

Well everybody knows how the ol' story goes  
There ain't nothin' they can say  
To keep you off of my mind come closin' time  
Baby I'm gonna sneak you away

Just like a little honeybee buzzin' 'round your cherry tree I ain't playin'  
I know you see me here alone but there's someone back at home who's waitin'  
C'mon honey, don'tcha know  
We gotta slip out quiet and slow  
I'd do a whole lotta wrongs just to do you right

(repeat chorus)

Hey baby, baby, baby, baby, baby we don't gotta explain  
Whenever we're together I forget about "what's her name"  
Well I haven't done nothin' yet  
That I'm afraid I won't regret  
I'd do a whole lotta wrongs just to do you right
