

Wonderful Life

The grass is greener on the other side
I felt so empty at the great divide
Lookin' for something beyond my reach

You answered everything I've ever prayed
And like a fool I looked the other way
Now you're here and I still can't believe

(chorus)

You're love has got me goin'
Looks like my world is glowin'
My days of endless nights are gone
My heart is overflowin'
Is my excitement showin'
Since we met everything just feels so right
You're givin' me a wonderful life

The wine was sweeter on the other side
My soul was thirsty but the well was dry
You're the sunshine when the nights are long

You give me wings lookin' in my eyes
In the night when the angels fly
You're the only reason I go on

(repeat chorus)
