

Be My Quarantine

Email you some flowers
FaceTime you for hours
Virtual kisses are all we got now
(All we got now)
It's getting' complicated
Bein' separated
Girl, I'm hittin' you up to see what's goin' down
(What's goin' down)
The world's on fire and we've both been confined
The two of us are the one thing on my mind

(chorus)
Won't you be my Quarantine
(Won't you be mine, be my Quarantine)
Ooh baby, wont you be my Quarantine
(Won't you be mine, be my Quarantine)

It's getting' frustratin'
All of this waitin'
But in the moment we're touchin' with our eyes
(Touchin' with our eyes)
It's a cyber celebration
Here's your invitation
Even the distance can't stop the butterflies
(Can't stop the butterflies)
Life's on pause and we've been stuck inside
These withdraws got me not thinkin' right

(repeat chorus)

The world's on fire and we've both been confined
The two of us are the one thing on my mind

(repeat chorus)
