

I Like It Like That

My baby's high class
She runs the show
Favorite position is C.E.O
She makes me want her

(chorus)

Yeah my baby (Baby knows where it's at)
Well she's a lady (Baby knows where it's at)
Yeah my baby (Baby knows where it's at)
She drives me crazy (Baby knows where it's at)
Well she can have it all with just a little snap
Ooh, I like it like that

She makes money
She calls the shots
So sexy, the things she's got
I really want her

(repeat chorus)

She gets business done
With one look
Lays down the hammer and I'm shook
You know I want her

(repeat chorus)
