

Love Doctor

When your body's shakin' and you got the chills
Dont'cha go reachin' for them "feel good" pills
I'll be the one to help you regulate
So lay back baby, let me medicate

(chorus)
I can help
Help you get enough
I'm a love doctor, love doctor
They call me Doctor Love
(Call him Doctor Love)

You don't need to light up to get you lit
Drinkin' that whiskey's gonna make you sick
I got the cure, I guarantee
When you need a fix baby, come see me

(repeat chorus)

Girl you don't need needles or cocaine
To feel that blood pumpin' through your veins
Take a shot of what I got, you'll feel just right
I got good love that I'm gonna prescribe

(repeat chorus)

I'm a love doctor, love doctor
I'll be your Doctor Love
