

# One Man Band

Down on one knee, she said yes  
Couldn't ask for better, 'cause I just got the best  
When she comes walkin' down the aisle  
I'll be the one with the big ol' smile  
All our friends are gonna join us when we celebrate  
Then we'll run off just the two of us to consummate  
And that little ring she's got on her hand  
You know what she calls it?  
She calls it her "one man band"

Well let me tell ya 'bout my baby  
She makes the fellas get in line  
But they're never gonna get her  
'Cause now that little girl's mine  
See that ring on her hand  
That's a "one man band"

She got a sexy way of walkin'  
She's always getting' all the looks  
Got a sexy way of talkin'  
Yeah, for me that's all it took  
I put a ring on her hand  
Now I'm her "one man band"

There's a whole lotta players  
That keep puttin' on a show  
Every time they sing their love songs  
Yeah, she always tells 'em no  
She waves 'em off with her hand  
She got a "one man band"

Hey let me tell ya 'bout my baby  
She make the fellas get in line  
But they're never gonna get her  
'Cause now that little girl's mine  
See that ring on her hand  
That's a "one man band"
