

Sandman

When my baby
When my baby lays beside me
Well I can't
I can't get enough of that girl
When she sleeps, I hope she's dreamin' of me, yes I do
Because to me she's the queen
Of the whole wide world

(chorus)

Hey Sandman (Hey Sandman)
Won't you help me (Hey Sandman)
With my baby (Make sure she's dreamin' right)
Make sure (Hey Sandman)
She's dreamin' right (Make sure she's dreamin' right)
Hey Sandman (Hey Sandman)
Please help me (Hey Sandman)
Help me with my baby (Make sure she's dreamin' right)
Make it me in her dreams
When she sleeps at night

Well last night
We went out on the town
Let me tell ya
I couldn't wait to get her in bed
We rolled around in the covers like newlyweds
Then she rolled on over
To rest her pretty little head

(repeat chorus)

Make it me in her dreams
When she sleeps at night
Put me, put me, put me
Put me back into her dreams
When she sleeps at night
