

Walk

Hey, hey baby
Welcome to a brand new life
Don'tcha worry baby
Everything will be all right
The streets have been set on fire
Smoke fillin' up the air
Breathin' in a burnin' desire
To stop all of the despair

(chorus)
We got to walk
We got to walk on
C'mon walk with me
Just keep'a walkin'

Hey, it's a new day
How it once was will be no more
Gotta stop all the fightin'
We're walkin' through a brand new war
The skies have been filled with poison
The times have most certainly changed
Silence is killed with noises
Screamin' for a brand new way

(repeat chorus)

A new revolution
A fight for equality
We gotta tear down the system
To end this brutality
All our brothers and sisters
Need to stand strong hand in hand
The time to make a change is right now
Everybody take a stand

(repeat chorus)
