

# Outside

I stare at the ceiling baby dreamin' of blue skies  
You know I crave the feelin' of that sunshine in my eyes  
Feels so wrong to wait so long the water looks so blue  
We've been overdue, good vibes will be comin' soon

(chorus)

I just can't wait to go outside  
The sun is smilin'  
Baby we can't help but feel all right  
The clouds are hidin'  
It's so nice outside

Oh how my heart beats so crazy for the ocean air  
I find myself dreamin' baby of your sandy hair  
Let's prolong our happy song and watch the flowers bloom  
We're way overdue, good vibes will be comin' soon

(repeat chorus)

A sensation that we won't let go  
It's the feelin' that'll feed our soul  
Wanna let it flow and then we'll get lost in those summer waves  
It's the colors I don't want to fade  
It's the thing I call my happy place  
Soon it will will go but through all the days it stays don't waste'em

Feels so wrong to wait so long the water looks so blue  
We've been overdue, good vibes will be comin' soon

I just can't wait to go outside  
The sun is smilin'  
Baby we can't help but feel all right  
The clouds are hidin'  
Babe put down the top let's take a ride  
The birds are flyin'  
Baby won't you come be by my side  
It's so nice outside
