

# YOUR LOVE CAN'T HURT ME NO MORE

I've seen the wildfire  
In your emotion  
I've felt the red flames  
Burnin' up the ocean floor  
But your love can't hurt me no more

You made my world shake  
But I'm still standin'  
All my destruction  
You held it in your hand before  
But your love can't hurt me no more

(chorus)  
I was tryin' to keep my distance  
But you took my resistance away  
Oh, but now my heart is tough  
And I'm better off with nothin'  
It's never gonna be the same

You were my poison  
Fell off the wagon  
Toxic and hopeless  
Locked outside a slammin' door  
But your love can't hurt me no more

Now that I realize  
What it feels like  
I'll be all right  
I suppose it is what it is, I'll live

(repeat chorus)

I've seen the wildfire  
In your emotion  
I've felt the red flames  
Burnin' up the ocean floor  
But your love can't hurt me no more  
No your love can't hurt me no more  
Your love can't hurt me no more
