

Outside (Christmas Edition)

I rush through the seasons baby, watch them pass me by
You know I crave the feelin' bundled up in a sleigh ride
Feels so wrong to wait so long to be so close to you
We've been overdue, Christmas will be comin' soon

(chorus)

I just can't wait to go outside
The snow is fallin'
Baby we can't help but feel all right
Winters callin'
It's so nice outside

Stockings hung now it's begun, there's magic in the air
I get that fuzzy feelin' seein' snowflakes in your hair
Sing along to joyful songs as long as you're in tune
We're way overdue, Christmas will be comin' soon

(repeat chorus)

A sensation that we won't let go
It's the feelin' that'll feed our soul
Wanna let it snow and then we'll get lost in a frosty haze
It's the cheer that I don't want to fade
It's the thing I call my happy place
Soon it will go but through all the days it stays don't waste'em

Sing along to joyful songs as long as you're in tune
We've been overdue, Christmas will be comin' soon

I just can't wait to go outside
The snow is fallin'
Baby we can't help but feel all right
Winter's callin'
Come on let's put up the twinkle lights
No more stallin'
Holdin' my snow angel baby tight
It's so nice outside
