

Just Love Me

Life is a struggle or so they say
Blood, sweat, and tears day after day
I need you now like the earth needs rain
A sudden storm to wash away the pain

Love is hard in a heartless world
Of angry guys and lonely girls
But here with me you'll never lose
Once the nightmare ends it's a dream come true

(chorus)

Just love me that's all you have to do
Forget to remember what we've been through
Just love me and say you'll always stay
I'd give forever for one day

Don't mention morning the moon is young
No talk of tomorrow baby hold your tongue
My life is changing overnight
Everything seems easy when you hold me tight

(repeat chorus)

Just love me
Just love me

(repeat chorus)
