

# Normal

Never been crazy about bein' sane  
Got one life to live gonna do it my way  
Losin' myself to stay in the game  
Lately it feels like a masquerade  
I play with fire to feel the burn  
My heart never listens, my heart never learns  
I feel secure with uncertainty  
I hold my breath just to feel you breathe

(chorus)

Normal is as normal does  
I forget what normal was  
All my reason disappeared  
There is nothing normal here

I'd rather be sorry than play it safe  
Take a new road to finish the race  
I feel alive when I'm riskin' it all  
The fear of flyin' is worse than the fall  
We'll take a journey with no guide  
Strip down to nothin' 'til there's nothin' to hide  
Find new beginnings from the end  
And never go back to normal again

(repeat chorus)

No way of knowin' what's in sight  
Drive in the dark with no headlights  
All great things start at the end  
And never go back to normal again

(repeat chorus)

Chase the sun to feel the rain  
Find what's happy in the pain  
In this chaos I see clear  
I want nothing normal here
