

Slow

Don't make no plans for the evenin' (what'cha got in mind?)
Tonight you're busy with me (Well that sounds just fine)
Why don't you stop by 'round seven
I'll slip you the key (should I bring some wine?)

Oh, no baby don't worry (what'cha need then baby)
Tonight we're drinkin' champagne (oh, well that's my thing)
I've been thinkin' about ya
All goddamn day (and it's worth the wait)

Baby we've been way overdue
For this moment for two
So kiss me like you're wantin' to stay (kiss me like you mean it)
I can't get enough of your lips
And slidin' up on your hips
Every touch is makin' me shake
Ooh, just wait a minute

(chorus)
Let's take it slow
Gonna hold you tight and never let you go (baby I know)
We got no place to go
Before we both lose control
Ain't no need to rush, let's take it slow

Come press your body against me (ooh)
I like the feel of your skin (then baby come on in)
And inch by inch
We're fallin' so much deeper in (I want it baby)
(Here I come)

Baby we've been way overdue
For this moment for two
So kiss me like you're wantin' to stay
I can't get enough of you lips
And slidin' up on your hips
Every touch is makin' me shake
Ooh, just wait a minute

(repeat chorus)
