

# When Love Comes Knockin'

All your friends have gone downtown  
They're busy burnin' the dance clubs down  
Home alone ain't where a girl like you should be  
You say somebody broke your heart in two  
Baby dry your eyes your cryin's through  
You got love on the way  
Just leave it all up to me

(chorus)

When love, love comes a knockin'  
Lower all the lights, minimize the talkin'  
I'm gonna... on your front door  
You're gonna feel a love you never dreamed before  
When love, love comes a knockin'

Well you're a pretty little thing, I'm sure you know  
What kind of fool would let you go  
You'll forget about him when I'm holdin' you real tight  
Your door is closed so baby open wide  
Just say the word and I'll step inside  
I'm gonna show you what love's all about tonight

(repeat chorus)
