

I Will Catch You

Divin' at a thousand feet
A parachute is all you'll need
Flyin' on a high trapeze
Is somethin' you can do with ease

But when it comes down to romance
You're afraid to take a chance
But I got nothin' left to lose
Since I fell head over heels for you oh

(chorus)
I will catch you if you fall in love
My arms will be here waiting open wide
Whoa, I will catch you if you fall in love
Any place baby, any time

If you're climbin' on a mountain top
I'll be below in case you drop
If you're glidin' with a broken wing
You won't have to fear a thing

You had me from the day we met
I jumped without a safety net
So baby I'll be here for you
If you start to feel you're fallin' too

(repeat chorus)

(repeat chorus)
Any place baby yeah
Any place baby, any time
