

# Let Me Be The One

I wanna go where no man has ever been  
Straight into your heart if you'd only let me in  
I have never stayed this long in just one town  
But somethin' about you keeps me hangin' around

I wanna know what you're tryin' to hide  
Like me you're restless and you're way too full of pride  
But I would walk a desert just to lay by your side  
Find some oasis where you'd be mine

(chorus)

Let me be the one you never turn away  
Oh, let me be the one who will finally stay  
We could walk hand in hand and I swear I'll never run  
You say there's one thing that you're needin'  
Let me be the one

I wanna hear you callin' out my name  
Just like the wind this feeling never can be tamed  
Some people told you that you're in a no man's land  
That was before you met the right man

Oh, once I was a drifter but I have settled down  
Nothing's gonna drive me away from you now  
You're afraid I'm gonna leave you after I have had enough  
But this is no mirage baby, this is love

(repeat chorus)

Let me be the one who could share all your nights  
Let me be the one for the rest of our lives  
We could walk hand in hand and I swear I'll never run  
You say there's one thing that you're needin'  
Let me be the one
