

Somebody To Love You

You need a job so you canb make some money
You need a nice warm place to stay
A sense of humor because life is funny
And a big stick to keep the wolf away

You need a car with good tires on it
And the right place to eat barbeque
A heavy duty set of jumper cables
And no holes in your walkin' shoes
The main thing you're gonna find you need
A firm place to plant your seed

(chorus)

You gotta find somebody to love you
Someone to be there for you night and day
Someone to share it with and be part of you
Love ain't no good 'til you give it away
You gotta give it away

I recommend you get some life insurance
Be prepared to dial 911
Pay close attention to your high blood pressure
And stay away from the man with the gun

You need a reason to get up in the mornin'
Make sure your clock has got a snooze control
You gotta find a place you can run for cover baby
'Cause overnight things can sure get cold
You're gonna find out sooner or later
You need a common denominator

(repeat chorus)

You're gonna find out sooner or later
You need a common denominator

(repeat chorus)
