

Waitin' On Ice

So many nights I've been alone in my room
Dreamin' of my one night with you
I studied my plan, I got a Coppertone tan
Rollin' in my spare dice too
When the palm reader told me that my time was at hand
I checked my horoscope and set the date
Well, tonight's the night, lucky stars shinin' bright
I'm gonna keep you up real late

(chorus)

I've got the champagne waitin' on ice
I've taken two showers
I dressed up really nice
But it seems, all my life
I've been waitin', waitin'
Waitin' on ice for you

Well now the way I work my romancin' baby
Dinin' and dancin' just won't do
So I checked myself in to the Holiday Inn
I got a room for two with a view
If you want some lovin' cool and easy
I can kindle my fire down low
But it's 9:59 and you're way past time
I'm wonderin' if you're even gonna show

(repeat chorus)
