

Elephant Tears

Clockwise

The time it just creeps by

Tears well up inside

Swallowing her

Remorse

Down her face they take course

Falling in full force

She didn't deserve

Sunrise

They pour out from her eyes

Blurring the clear skies

Pounding the ground

Night calls

She lies in her waterfalls

While feeding the cannibals

Who watch as she drowns

CH)

All your crying's

Crucifying

Helpless lying here

Let me mend you

I'll help to

Dry all your elephant tears

-Solo-

(Repeat chorus)

A dim star

I watch her from afar

So delicately scarred

Baby don't cry
