

# Without You

Shaky ground I'm dizzy walkin'  
Feels off balance on the avenue  
Without you  
When you're gone there ain't much talkin'  
What's a palace and a sky of blue  
Without you

CH)  
Without you  
The world starts spinnin' backwards  
Without You  
There's no ever after

Clouds feel heavy, heart beats steady  
Nothin' to raise me up and see me through  
Without You

Mentally I'm misconstrued  
And lost in empty space  
My senses turn numb and blue  
No moonbeams on my face

(Repeat chorus)

Light my fire, drown my senses  
You're my world and there's no silver spoon  
Without You
